

SHOPZEN E-COMMERCE

TEST SUMMARY REPORT

Document ID	TSR-SHOPZEN-001	Version	v1.0
Prepared By	Md Rezuan Hussain	Date	June 15, 2025
Test Period	Jun 6 – Jun 14, 2025	Status	Final

1. EXECUTIVE SUMMARY

Total Test Cases	45	Executed	45
Passed	43	Failed	1
Blocked	0	Skipped	1
Pass Rate	95.6%	Total Bugs Found	12
Bugs Resolved	0	Bugs Open	12

2. MODULE-WISE EXECUTION SUMMARY

Module	Total TCs	Passed	Failed	Skipped	Pass %	Status
Registration	7	7	0	0	100%	Pass
Login	6	6	0	0	100%	Pass
Search	5	5	0	0	100%	Pass
Product Detail	3	3	0	0	100%	Pass
Cart	6	6	0	0	100%	Pass
Checkout	6	5	1	0	83%	Fail
Payment	5	5	0	0	100%	Pass
Profile	7	6	0	1	86%	Pass
TOTAL	45	43	1	1	95.6%	—

3. DEFECT SUMMARY

Bug ID	Title	Module	Severity	Priority	Status
BUG-001	ZIP Code '0' accepted at checkout	Checkout	High	High	Open

BUG-002	Empty search shows all products (no error)	Search	Low	Low	Open
BUG-003	Cart total wrong after qty change without Update Cart	Cart	Medium	Medium	Open
BUG-004	Login error reveals valid email (security)	Login	Medium	Medium	Open
BUG-005	Product image gallery thumbnails unresponsive	Product Detail	Low	Low	Open
BUG-006	Remember Me does not persist session	Login	Medium	Medium	Open
BUG-007	Coupon applied but no strikethrough on old price	Checkout	Low	Low	Open
BUG-008	Profile name not updated in header after save	Profile	Low	Low	Open
BUG-009	Checkout proceeds with all blank address fields	Checkout	High	High	Open
BUG-010	Order history 500 error for users with >10 orders	Profile	Critical	High	Open
BUG-011	Add to Cart hidden on 375px mobile viewport	Cart	High	High	Open
BUG-012	Password reuse allowed in change password flow	Profile	High	High	Open

Severity	Count	% of Total
Critical	1	8%
High	5	42%
Medium	3	25%
Low	3	25%
Total	12	100%

4. CONCLUSION & RECOMMENDATION

Test Execution Complete. All 45 planned test cases were executed during the testing cycle from June 6 to June 14, 2025. **43 test cases passed (95.6% pass rate)**, 1 failed (TC030 — invalid ZIP accepted at checkout), and 1 was skipped (TC042 — requires production order data).

12 defects were identified and logged, including 1 Critical, 5 High, 3 Medium, and 3 Low severity bugs. All defects remain Open pending developer fixes.

RECOMMENDATION

The ShopZen application is **NOT recommended for production release** in its current state. The following must be resolved before go-live:

- **BUG-009** (Critical): Checkout bypasses all address validation — orders can be placed with no shipping address.
- **BUG-010** (Critical): HTTP 500 crash on Order History page for users with >10 orders.
- **BUG-011** (High): Add to Cart button not accessible on mobile viewport.
- **BUG-012** (High): Password change allows reuse of current password.

After fixes, full regression testing of affected modules is required.
